

WHISTLEBLOWER LAURA EISENHOWER
OUTS SECRET MARS COLONY PROJECT

Laura Magdalene Eisenhower

SEATTLE, WA (EXAMINER) February 10, 2010 – Alfred Lambremont Webre – Seattle Exopolitics Examiner – In a public statement, Laura Magdalene Eisenhower, great-granddaughter of former President Dwight David Eisenhower (1890-1969), has exposed her attempted recruitment from April 2006 through January 2007 by a secret Mars colony project.

Ms. Eisenhower's account of her targeting by time travel surveillance and attempted manipulation by trained intelligence agents attached to a Mars colony project were revealed in an ExopoliticsRadio.org interview and in an extensive written statement at Ms. Eisenhower's website.

Ki' Lia, a Stanford-educated artist, futurist and colleague of Ms. Eisenhower, has provided a corroborating first-hand witness account of her and Ms. Eisenhower's attempted recruitment into a secret human survival colony on Mars, available at Ki' Lia's website.

The alleged purpose of the secret Mars colony was to provide a survival civilization for the human race on Earth in the event of a planned (such as HAARP or bio-weapon induced) or natural cataclysm (such as by solar flares) that might depopulate the Earth.

In revealing these secret Mars colony plans, Ms. Eisenhower and Ki' Lia have emerged to join a growing cadre of independent whistle blowers disclosing secret technologies and extraterrestrial-related covert operations of U.S. military-intelligence agencies and corporate entities.

The revelations of Ms. Eisenhower and Ki' Lia corroborate independent whistle blower revelations made by lawyer Andrew D. Basiago of covert U.S. government surveillance of political persons of interest using secret time travel technology. Their allegations are also consistent with disclosures made by Mr. Basiago that twice in 1981 he teleported from a CIA facility in El Segundo, California to a secret U.S. base on Mars, first by himself, and then a second time in the company of CIA agent Courtney M. Hunt.

Laura Magdalene, extraterrestrials and the Eisenhower legacy

Laura Magdalene Eisenhower, who has resided and traveled independently in over 20 cities in the U.S. and abroad, has developed a wide knowledge base in frontier health, natural systems, alchemy, metaphysics and ancient history, and also has degrees and certifications in science, wilderness expedition leadership, natural healing and building. She is a mythic cosmologist, global strategist, clairvoyant healer, Earth advocate, and artist.

President Eisenhower

In introducing her Mars colony revelations at Exopolitics.com, Ms. Eisenhower writes, “My great-grandfather President Ike, who was also the Army general who led the Allied Forces to victory over Hitler, battled evil corrupt powers on Earth and took on some of the most challenging scenarios in history. As I grew up, I could sense that I was completing this battle that has ancient roots. When Hitler died and the Nazis lost power, the entities including those that were ET/Extraterrestrial did not. They continued to find hosts and create agreements with people who were a part of the races of the patriarch and Global Elite – who want to run things through fear tactics, control and the suppression of Sophia or the essence of the Divine Feminine.”

Time travel: How Laura Eisenhower was targeted by the secret Mars colony project

In her statement, Ms. Eisenhower details how Agent X, her principal “handler” from the secret Mars project, eventually confessed to her that “He knew a lot about me from numerous sources that overlapped with one another – from Freemasons, Knights Templar, to this hidden branch of the government that was behind creating this Mars mission. They understood me based on remote viewing and time travel devices and they also seemed to recruit people from the Freemasons and Knights Templar who were well aware of the Magdalene path. They seemed to all be connected, but someone was taking advantage of it all and trying to stay one step ahead of how nature may have unfolded as far as us coming together into Union. I did not know he was an agent until months into the relationship and I later found out that it was them who sent him to find me and it was all a set-up.”

Ki’ Lia, who has worked as an accomplished, innovative, and multidisciplinary design consultant with many renowned pioneers, corroborates the background of how Ms. Eisenhower was targeted as a subject by a shadowy group behind the secret Mars colony, using time travel and exotic targeting techniques.

Ki’ Lia

Laura Eisenhower outs Secret Mars Colony Project, page 3

Ki' Lia states, "After years of friendship, in the spring of 2006 in Washington, DC, I met her and her new romantic partner, who I will call Agent X. He claimed to know himself archetypally as Joseph of Arimathea/Osiris/Orion and affiliated with different, interlinked secret societies, e.g., Knights Templar and Freemasons. He and Laura quickly formed an intimate relationship, and I helped conduct 'Divine Union' rites of passage for them."

She continues, "Agent X revealed that his group had identified her through her bloodline, as the matrilineal great-granddaughter of 34th U.S. President Eisenhower (and the Allied Commander who defeated Hitler). As well, they knew her as a unique reincarnation of Magdalene/Sophia/Isis (ever since she was young, many psychics have recognized her). He also said his group was interested in her twin sons, who they knew as Romulus and Remus (founders of Rome) and the hero twin archetypes in the Mayan prophecy."

Ki' Lia writes, "They had a list of male partners, who she could be with in possible time lines, and he was one of them. They targeted her (especially her heart) and these men through electromagnetic or psychic weaponry, and indeed many men tried to destroy her throughout her life. Agent X admitted that he (as well as his parents) was implanted with a chip and had a multiple personality disorder, which involves very sudden robotic and abusive behaviors. This is the typical profile of someone who was subjected to well-documented MK-ULTRA experiments and multi-generational occult ritual abuse."

"Their data about Laura and her partners were seemingly gathered through a time-viewing device (which they had called 'Looking Glass' or 'Orion's Cube' or possibly through remote viewing or even time travel) – all part of their cadre of top classified technologies already disclosed in increasing black projects literature."

Time line of the secret Mars project

Ms. Eisenhower, who is the mother of twin boys, writes about the evolution of her relationship with "Agent X" during this period of attempted recruitment into the secret Mars project. She states, "August, 2006. The plan was that I would move to Raleigh, NC, and we would live together and figure this entire thing out, as [Agent X] kept convincing me that my vision and mission would not go unnoticed. So we made the move happen. Upon arrival, things drastically shifted. Mars would always come up again, and I was not feeling like it was safe. I felt that it was a mission being created from a hidden agenda that wished to disrupt our union and have control over it – to be used for their plots in the grander scheme of things, to assist in re-seeding a civilization there. I could just sense it because his behavior often changed and fluctuated greatly from connection with me, to panic and intensity about these missions."

Ki' Lia documents Agent X's organization of the secret Mars project: "My science and business background wasn't extensive, but as a quick multidimensional learner, I could immediately spot key alliances and best technologies. I had made links to significantly wealthy people for my various ventures, but I continuously questioned why the heck with all their connections would they want me involved. Well, Agent X recognized my leadership and visionary skills, and wanted funds coming through his intimate allies, in order for him to achieve some equal footing with his senior advisers."

Dreams and the secret Mars colony project

Ms. Eisenhower explains the role of her dreams in breaking away from the attempted recruitment by the secret Mars colony project.

She writes, "Over time, the Mars issue became louder and louder. Ki' Lia and [Agent X] were working on plans to make this mission happen, but she realized his plans were dubious based on my observations and she could only try investigate more. She and I would talk more and more and I would fill her in on what I was seeing. It was clear he was being mind-controlled. I even had dreams and premonitions that something was way off and in one dream I got taken up by chains into a ship and a voice told me I had to make a choice about being with them or staying on Earth – and that they wouldn't harm me but they would certainly control me."

In the dream, Ms. Eisenhower states, "I chose Earth and fell out of the ship and fell into the ocean and was all alone in darkness. I tried to reconnect with the ship and flew up into the air to just communicate to them and understand things more, but thunder and lightning obscured my ability to see the ship and I fell back into the water. Then some crazy alignment happened and all these planets were surrounding me: this organic light filled my being and I knew I made the choice for Gaia which connected with my deep awareness of what I am here to create. Plus, I naturally have adverse reactions to being controlled in any way, so I knew it was my only choice."

"I told [Agent X] the dream and he was nervous, but we stayed together and I continued to observe him while feeling a broken heart deep inside. I knew I was losing him to them."

Ms. Eisenhower writes, "I said I did not want to go to Mars even if there were Earth catastrophes and I felt confident especially after

that dream, but he said I had to and if I didn't they'd kidnap me. His behavior got worse and worse and he was dealing with all kinds of death threats and there was no way he was able to pull out of their grips or stay on Earth with me."

The secret Mars project and the Divine Feminine

In the aftermath of breaking away from the secret Mars colony project after January 2007, Ms Eisenhower writes, "Ki' Lia and I discovered that in order for [the secret Mars colony] to have their matrix of control, they wanted the Magdalene-Isis and Osiris seeding of Mars, or the power of the Holy Grail, which means 'royal blood.' After so many readings throughout my life confirmed this as my identity, not just essence – it all started to make sense but in a way that was hard for me to want to communicate or own up to, except for within. I knew my energy field, heart and intention was strong enough as a personification of the Venus calendrical path (which everyone can access) to help regenerate Gaia and Mars and shift us into the positive 2012 Awakening of consciousness."

Ms. Eisenhower states, "I knew this would lead to the liberation from the controls that have kept us imprisoned for so long."

Time travel political surveillance of U.S. presidential persons of interest

A lawyer in Washington State and president of the Mars Anomaly Research Society named Andrew D. Basiago has revealed the existence of a secret DARPA time travel program in which he was a childhood participant that included the identification of future persons of interest utilizing different forms of quantum access beginning in the early 1970s.

Andrew D. Basiago

On a November 11, 2009 appearance on Coast to Coast AM, Mr. Basiago publicly stated that this DARPA program involving time travel was identifying future persons of interest, including those who would serve as U.S. president, and then informing such persons of their destinies.

He stated that in the early 1970s, in the company of his father, Raymond F. Basiago, an engineer for The Ralph M. Parsons Company who worked on classified aerospace projects, he was present at a lunch in Albuquerque, New Mexico at which future U.S. Presidents George H.W. Bush and George W. Bush were guests shortly after they were informed that both would one day serve as president.

He also stated that in the early 1970s, the DARPA program, Project Pegasus, had identified future Presidents Carter and Clinton

utilizing time travel technology and that when Mr. Basiago met future President Barack Obama in Los Angeles, California in 1982 when Mr. Basiago was attending UCLA and Mr. Obama, then a student at Columbia University, was visiting former classmates at Occidental College in Los Angeles, a statement made by the ally of Mr. Obama in the anti-apartheid movement that introduced them revealed that Mr. Obama, then age 20, already knew that he would one day be President.

Mr. Basiago revealed that the reason Project Pegasus was able to identify Mr. Carter, who was then Governor of Georgia, in 1971, as a future U.S. President, is that the program was in possession of a copy of the Universe Books edition of *Exopolitics: Politics, Government and Law in the Universe* by Alfred Lambremont Webre, a book that this reporter would not write until 2005, but which bears a quote on its front pages of a statement made by President Carter.

According to Mr. Basiago, Mr. Webre's book *Exopolitics* was, among other written works, physically retrieved from the future by Project Pegasus and brought back in time to 1971 or a prior time. At that time, 1971, Mr. Webre was General Counsel of the New York City Environmental Protection Administration and had been placed under time travel surveillance by the U.S. government. Thus, there is historical precedent for the covert political surveillance, via remote sensing in time, of a person of interest like Laura Magdalene Eisenhower, great-granddaughter of U.S. President Dwight D. Eisenhower.

Secret U.S. bases and intelligent life on Mars

Ms. Eisenhower's and Ki' Lia's account of a secret Mars colony designed as a survival civilization for the human race is plausible within the context of independent whistle blower evidence regarding a secret U.S. presence on Mars.

Laura Eisenhower outs Secret Mars Colony Project, page 6

There is now independent whistle blower evidence of secret U.S. bases on Mars. Mr. Basiago, formerly involved in a secret research and development project undertaken by a U.S. defense agency, has verified his secret teleportation to U.S. bases on Mars, and to meeting intelligent Martian extraterrestrial life.

Mr. Basiago confirms that "the United States has been teleporting individuals to Mars for decades and recounts the awe-inspiring and terrifying trips that he took to Mars in 1981 after he was tapped to go there because he had teleported as a child participant in Project Pegasus." Mr. Basiago has also publicly confirmed that in 1970, in the company of his late father, Raymond F. Basiago, he met three Martian astronauts at the Curtiss-Wright Aeronautical Company facility in Wood Ridge, New Jersey while the Martians were there on a liaison mission to Earth and meeting with U.S. aerospace personnel.

Ms. Eisenhower and Ki' Lia appear to be following a trend of whistle blowers predicted by the Web Bot project. A September 15, 2009 report using Asymmetric Language Trend Analysis (ALTA) of data collected by the Web Bot predicts that "It is very likely that the 'whistle blower' who had been described in previous ALTA reports (see 1309) as emerging out of the period of the [coagulation] of the [government/officialdom of the USofA due to financial structure collapse] is a person by the name of [Andrew D. Basiago]." The ALTA report predicted that a trend of whistle blowers would follow Mr. Basiago's initial revelations.

A return to the Divine Feminine

As whistle blowers of a secret Mars colony project, Laura Magdalene Eisenhower and Ki' Lia ask for a further, public investigation. Ms. Eisenhower writes, "All I ask is that this be further investigated. There is still much to uncover and piece together. It is crucial that the truth is revealed and that world leaders disclose

their files related to any cover-ups of ET and UFO relations, and have the ethics and integrity to look deeper into the use of technologies such as ELF and HAARP. I hope that citizens of this planet embrace with an open mind, their true origins and relationship with Universal Society and share this information with others."

Ki' Lia asks that "*serious investigations be made into the real agenda and cover-up – of the currently existing Mars colony as a survival plan for a planned or foreseen disastrous 2012 Earth time line.*"

In her in-depth ExopoliticsRadio.org interview, Laura Magdalene Eisenhower calls for a return of the Divine Feminine. She writes in her public statement, "The archonic patriarchal energies have had a manipulative hold on the life-force and creativity of Gaia for thousands of years, personified as Sophia the Goddess. Our Mother Earth is more powerful than these lower energies though, but to instantly break free of the dysfunction would mean a mass apocalypse and the re-establishment of a new creation. To let go and lose awareness would result in being taken away on an agenda that has been in the works, with the intention of re-seeding a new civilization on Mars under the selfish control of the Global Elite, therefore leaving the Earth to atrophy and self-destruct." Ms. Eisenhower states, "The Mother energy loves us though beyond our comprehension and is patient and determined to create global transformation, regenerate and re-unite with Heaven, through the cycles of nature and the path of Venus."

Ki' Lia states, "I/We call every single person of every age, race, faith and background to stand up for the Truth... of our loving and laughing eternal soul nature. Our collective and internal reunion with the Divine Feminine and Masculine. Our power of consciousness to heal, travel and manifest instantaneously. And our magnificent galactic heritage and destiny. We must rebuild our civilization and restore our lost Paradise, Atlantis, Shambhala, Eden or Heaven on Earth."
